INTRODUCTION

This Building and Loan Manual is a guidebook for Western North Carolina United Methodist Churches. It outlines step-by-step procedures that will assist new and existing churches through the building and loan process. It is designed to help churches, districts and other agencies of the Western North Carolina Conference of the United Methodist Church (WNCCUMC) develop a sound building and financial plan that will conform to existing conference policies, mandated legal requirements, loan policies of the United Methodist Foundation of Western North Carolina, Inc. (UMF) and The Discipline of the United Methodist Church.

In addition to these guidelines, each district may have further requirements. We encourage local charge conferences, boards of trustees or finance committees to contact both the Foundation and their local District Superintendents before beginning the building and loan process. **Churches that qualify for funding through The Duke Endowment are also encouraged to contact The Duke Endowment directly to learn about their funding process and procedures.**

This workbook contains a number of sample documents that must be submitted and approved during the pre-construction phase. They are organized in sequence based on standard building and loan practices and church policies. They comply with the policies of the United Methodist Foundation of Western North Carolina, Inc. and should be strictly followed by churches and districts that plan on receiving funds.

A sample timeline, also provided on page seven in this handbook, will help local churches anticipate the length of time required to complete various phases of the building and loan process and in what order each step should be completed.

The United Methodist Foundation of Western North Carolina, Inc. works with churches of all sizes, ages, demographic makeup and financial conditions. We offer investment fund options, low-cost loans to churches and church-related institutions, planned giving and endowment development.

The Foundation seeks to partner with local churches as they consider building projects and related financial issues. Through this manual and other consultative service, the Foundation seeks to help individual churches develop a comprehensive plan that considers all aspects of its current and future operations, including: mission, ministries, history, current status and vision for the future.

Getting Started:

Step One of the building and loan process is to become familiar with Paragraph 2543 of the 2008 Book of Discipline of the United Methodist Church, which pertains to church expansion and building projects. This guidebook follows – and will help facilitate – the approval process mandated by The Discipline. Please pay particular attention to section 2543.4d governing the accessibility requirements for persons with handicapping conditions.

Step Two is to define the project and to begin to develop a strong financial plan. The Administrative Board or Council of your church should appoint a study committee to undertake this task. A Project Worksheet (Appendix B), will help the committee define the scope of the project and customize a financial plan that meets your needs and objectives. The Worksheet will help:

1. Describe the project,
2. Develop a purpose statement,
3. Establish and estimate the cost of the project,
4. Develop a timeline for the project (See sample timeline for a building project on page seven in this handbook),
5. Create a current financial profile of your local church, and
6. Identify the resources available for the project.

Project Worksheet complete on: _____ / _____ / _____

A Sample Project Worksheet appears in Appendix B.

Step Three: Once the worksheet is completed, it becomes the basis of the report that the church’s study committee will present to the church’s pastor and district superintendent to gain their consent for the project (Par. 2543.1, United Methodist Discipline.) (See Sample Approval Document, Appendix C.) Critical dates should be recorded as follows:

1. Project to be presented to the pastor: _____ / _____ / _____
2. Pastor’s written consent given: _____ / _____ / _____
3. Project to be presented to District Superintendent: _____ / _____ / _____
4. District Superintendent’s written consent given: _____ / _____ / _____

If a site approval is necessary, such approval must be obtained from the District Board of Church Location and Building of the District Board of Missions and Church Extension before proceeding to Step Four (Par. 2543.2)

1. Site to be presented to District Board of Church Location and Building of the District Board of Missions and Church Extension on:

_____ / _____ / _____

2. Site approved by District Board of Church Location and Building of the District Board of Missions and Church Extension on:

_____ / _____ / _____

A Sample Approval Document appears in Appendix D.

Step Four: The Church Study Committee is now ready to present its report to a regular or called session of the Charge Conference, in order to gain its consent. The congregation must be notified of the proposed action at least ten days prior to the Charge Conference (Par. 2543.3). Again, the committee should record the critical dates as follows:

1. Notice of Charge Conference given on: _____ / _____ / _____
2. Project to be presented to Charge Conference on: _____ / _____ / _____
3. Charge Conference approval given on: _____ / _____ / _____

The Charge Conference now must approve the project and appoint a Building Committee, or authorize the Board of Trustees to act as a Building Committee.

Building Committee authorized: _____ Yes _____ No
Trustees authorized to act as Building Committee: _____ Yes _____ No

A Sample Charge Conference Resolution appears in Appendix D.

Step Five: The Building Committee must meet the provisions of Paragraph 2543.4 of the 2008 Discipline, which specifies:

1. Estimate the needs the project will meet.

Completed on: _____ / _____ / _____

2. Ascertain the cost of property to be purchased.

Completed on: _____ / _____ / _____

3. Develop appropriate preliminary architectural plans

Completed on: _____ / _____ / _____

4. Secure an estimate of the cost of the proposed construction. (Accuracy at this point is most important since refinancing for an increase amount later is extremely difficult and time-consuming.)

Completed on: _____ / _____ / _____

5. Develop a preliminary financial plan for securing payment of all costs to be incurred.

Completed on: _____ / _____ / _____

Step Six: The building committee must submit a statement of need for the proposed facilities, based on all of the data developed in Step Five, to the District Board of Church Location and Building of the District Board of Missions and Church Extension. (Par. 2543.5)

District Committee of the Board authorizes project continuation: ___ Yes ___ No

Step Seven: A Church Conference, called by the pastor WITH THE DISTRICT SUPERINTENDENT'S WRITTEN CONSENT and with ten days notice of the proposed action to the congregation, will meet on _____ / _____ / _____ and be presented with the plans as described in the data developed in Step Five. (Par. 2543.6)

The Church Conference authorizes project continuation: ___ Yes ___ No

Step Eight: The building committee will develop detailed plans and a comprehensive financial plan, which will be submitted to the District Board of Church Location and Building of the District Board of Missions and Church Extension on: _____ / _____ / _____ (Par. 2543.7)

District Board authorizes project continuation: ___ Yes ___ No

Step Nine: The building committee's detailed plans and comprehensive financial plan will be submitted to the Charge Conference on: _____ / _____ / _____ (Par.2543.7)

The Charge Conference authorizes project continuation: ___ Yes ___ No

The Charge Conference authorizes the building committee to take all necessary steps to carry out this action and to execute any necessary contract, deed, bill of sale, mortgage or other written instrument. (This authorization is limited by the requirements of Pars. 2503, 2535, 2536, 2537, 2538, 2539 and 2540 – see steps ten and eleven.):

If the church is to secure a mortgage on the property in order to finance the project, the conditions of either Par. 2539 or 2540 must be met.

1. A Charge Conference, called by the pastor with ten days notice to the congregation of the action to be taken, will meet on:
____ / ____ / ____
2. A resolution authorizing the proposed action was approved by a majority of the members present and voting on:
____ / ____ / ____
3. The trustees or board of directors were authorized to take all steps necessary to accomplish the proposed action: ___ Yes ___ No
4. All necessary written instruments carry the signatures of two officers of the Board of Trustees or the Board of Directors: ___ Yes ___ No
5. The written consent of the pastor and of the district superintendent to the proposed action is included in or affixed to the mortgage:
___ Yes ___ No

Step Ten: The local church shall acquire a fee simple title to the property on which the building is to be erected. (Par. 2543.10)

1. Requirement of Par. 2503 (trust provision) met: ___ Yes ___ No
Date: ____ / ____ / ____
2. Requirements of Paragraphs 2535 and 2536 or Paragraphs 2537 and 2538 have been met: ____ Yes ____ No
Date: ____ / ____ / ____

Step Eleven: The project is to be put out to bid with bids to be returned by: ____ / ____ / ____

NOTE: No contract is to be signed until sufficient cash is on hand, and/or pledges payable during construction, and/or a loan secured.

OFFICERS OF THE BOARD OF TRUSTEES ARE THE LEGAL OFFICERS OF THE CHURCH WHO SHOULD EXECUTE BIDS AND ALL LOAN DOCUMENTS.

THINGS TO CONSIDER BEFORE YOU BEGIN YOUR BUILDING PROJECT

When an institution is considering a building project, financial issues are at the forefront of the decision making process. Sometimes it is difficult to know if the right questions are being asked, much less whether you are coming up with the correct answers. As your partner in the building and loan process, the Foundation is happy to share its expertise and resources. As you begin the planning process, here are some issues you may want to consider.

SHOULD WE PAY CASH OR SHOULD WE BORROW?

It is always less expensive for a church to pay cash for a capital project. However, a church might consider borrowing when its vision and ministry depend on a capital project that cannot be paid for in cash, and, it can generate enough income to service the debt and not create shortfalls or hardships on the other obligations of the church.

SHOULD WE CONSIDER A CAPITAL CAMPAIGN?

Almost every church we encounter uses a Capital Campaign for major projects. A Capital Campaign is an organized effort to raise funds over and above the operating budget. This money can be used to pay for construction costs, or principal and interest for the term of the Campaign.

During this time your operating budget should be able to grow enough to make the monthly loan payments and to cover additional apportionments, maintenance, programming, staff and other needs.

It has been our observation that churches:

- Take from three to five months for a campaign
- Will collect about 85% of the pledges; and
- By using an outside consultant can expect to raise 50% more in commitments than if they used a self-led campaign.

WHEN HIRING AN OUTSIDE CONSULTANT:

- Churches should interview as many consultants as possible to find the right match for their church.
- Fees will vary with the size of the fund-raising organization. It is best to negotiate a stated fee in advance of the drive, understanding that the out-of-pocket costs (housing, travel, phone and materials) are usually in addition to the stated fee. A fee based on a percentage of funds raised is not encouraged.

(See “Consultant Interview Sheet” on next page.)

CONSULTANT INTERVIEW SHEET

- *Who is the on-site consultant responsible for this campaign?*
- *How many years of experience does the consulting company have?*
- *How many years of experience does the consultant have?*
- *Number of campaigns in United Methodist Churches?*
- *Number of campaigns in similar sized churches?*
- *How much time will the campaign take?*
- *What is the best time of year for the campaign?*
- *Will there be one person conducting the campaign?*
- *Will this person conduct other campaigns at the same time?*
- *How much time will the consultant actually spend on site?*
- *Will church members be used in this campaign?*
 - *If so, how many?*
 - *How will they be used?*
- *How will the campaign be developed to meet the distinctive needs of our congregation?*
- *What kind of follow-up is provided?*
- *How will the consultant work with the congregation in setting goals and preparing for an effective campaign?*
- *What are the fees and how are they paid?*
- *What other costs are associated with this campaign?*
- *What were the last three campaigns the consultant conducted and what were their outcomes?*
- *List three other references.*
- *How will the consultant lead the congregation in understanding Christian stewardship and giving, specifically within the United Methodist Wesleyan tradition?*

HOW MUCH CAN WE EXPECT TO GROW?

On the average, active, growing churches increase their operating income five percent per year. Occasionally, a church may grow at a greater rate, but very seldom is this growth maintained on a year-to-year basis. A five- percent income growth figure is a good yardstick for most churches.

IF YOUR CHURCH IS RELOCATING

If your church is relocating, you may be counting on defraying the cost of the move by selling the current site. Before you estimate your profits, understand that selling church property can be difficult and the market value of your property may be much lower than you anticipate. Be willing to take an objective look at your property value and consult a real estate broker if necessary.

You should also be aware that the Foundation would not loan money to the potential buyer of your old site unless the buyer is a United Methodist Church or agency of the Western North Carolina Conference.

We will not lend money based on a note receivable you take from a buyer.

Any loan decision we make will not be based on the sale of the old site to pay down on a new loan.

WHICH IS MORE IMPORTANT, CASH FLOW OR COLLATERAL?

We qualify all borrowers based on their ability to generate enough cash to repay a loan. We do not look at collateral value as the primary source of repayment.

DETERMINING SAFE DEBT SERVICE

We recommend that your total loan payments in a given year should not exceed 35% of your operating income on debt service. Your safe debt level should be determined on the basis of:

- Current budget items
- Available cash
- Anticipated future growth, and
- Capital fund pledges

ARE THERE OTHER COSTS ASSOCIATED WITH A BUILDING PROJECT?

- Architectural Fees
- Engineering Fees
- Capital Funds Campaign
- Closing costs and loan interest
- Site Purchase
- Site Preparations and Finishes: Clearing and tree replacement, cut and fill, right-of-way improvements, environmental mitigation/removal, landscaping
- Legal fees: (for property title search, etc.), construction contractor services
- Bond and Insurance Costs: Payment and performance bonds, builder's risk and liability insurance
- Permits, Zoning Changes and Inspections: Driveway permits, re-zoning, variance and exception costs, sub-surface soil inspections, soils investigation, survey boundary, topographical, tree inspection, environmental survey
- Utilities: Water connection/plant, sewer connection/plant, storm water connection, telephone/electrical/gas service
- Staff Needs and Workman's Compensation
- Furnishings
- Signs
- Maintenance Costs
- Contingency Amounts

ARE THERE CERTAIN REGULATORY REQUIREMENTS THAT SHOULD BE RESEARCHED AND CONSIDERED?

- Local Water Management District
- North Carolina Department of Environmental Protection
- US Army Corps of Engineers
- City Planning Board
- City Building Code: Landscape Code, Signage Code
- City Concurrency of Capacity: Recreation, Traffic Impact, Mass Transit, Water/Storm/Sewer
- City Fire Marshall
- City Zoning Code: Minimum Lot Size, Setbacks, Maximum Lot Coverage, maximum height, PUD stipulations
- Federal/State Accessibility Law

NEW CHURCH SITE

- How much land is needed if the church is relocating to a new site?
- Is the new site debt free?
- Has a study been conducted to determine utilities accessibility, traffic flow, curb cuts, etc.
- Has a study been made of all local, management district, county and state building codes and regulations?
- Will the new site meet all such requirements?
- Has a relocation plan and the new site been approved by the District Board of Church Location and Building?

WHAT SHOULD BE CONSIDERED WHEN EXAMINING A POTENTIAL NEW SITE?

- Community Land Use Plan
- Existing Church Activity
- Ten Year Demographics
- Visibility
- Frontage
- Access
- Appraisal
- Schools
- Housing
- Commercial/Industrial use or zoning
- Deed Restrictions: Site use, design review, maintenance requirements, setbacks, building size easements, etc.

HOW MUCH SPACE DO WE NEED?

The following are suggestions drawn from material provided by the Office of Architecture, National Division, of The United Methodist Church. However, local building codes will determine actual space requirements.

Additionally, see 2008 Book of Discipline, paragraph 2543.4 on requirements for the physically challenged.

General Guidelines for Special Needs:

- Worship Area: 12 sq. feet per person

- Education:
 - A. Nursery & Kindergarten: 35 sq. ft. per person
 - B. First through Sixth Grades: 30 sq. ft. per person
 - C. Seventh through Twelfth Grades: 25 sq. ft. per person
 - D. Adult: 20 sq. ft. per person

- Fellowship Hall: 12 sq. ft. per person

- Narthex: 3 sq. ft. per person

- Offices: Minimum of 150 square feet per office

- Restrooms: 150 to 200 sq. ft. per office

- Kitchen: 20% of the Fellowship area

- Corridors and Storage: 20% of total above

- Parking: At least one space for every 2.4 people in attendance.

WHAT BUILDINGS SHOULD WE BUILD FIRST?

Generally, new and relocating churches have less financial difficulty when they build in the following order:

- Multi-purpose space:
 - Large open area
 - Kitchen
 - Classrooms/Office Area
- Education Space
- Additional Education/Office Space
- Sanctuary

ARCHITECT INTERVIEW SHEET

- *Who is the contact person responsible for this job?*
- *What is their experience?*
- *List the last three building projects you designed that were actually constructed.*
- *Were they completed at or under estimated cost?*
- *If not, why?*
- *Have you designed any United Methodist Churches? Please list them.*
- *How much time do you spend on a project during construction?*
- *What do you do when you are there?*
- *What is your policy/fee on change orders?*
- *What is your experience with local building codes, zoning requirements, city, county and other restrictions or ordinances in this community?*
- *What is your fee?*
- *What is the schedule for payment?*
- *If your design is over budget, what are your remedies?*
- *Will you provide detailed plans and specifications?*
- *List at least three references.*

CONTRACTOR INTERVIEW SHEET

- *Who is the contact person responsible for this job?*
- *What is their level of experience?*
- *Will they have other jobs going on at the same time?*
- *If so, how much time will they spend on this project?*
- *List the last three building projects you constructed.*
- *Were they completed at or under the estimated project cost? If not, why?*
- *Were they completed on time? If not, why?*
- *Have you built any United Methodist Churches? Please list them.*
- *What is your experience with local building codes, zoning requirements, city, county and other restrictions or ordinances in this community?*
- *What is your policy/fee on change orders?*
- *Can you provide payment and performance bonds?*
- *Who provides your builder's risk and workman's compensation insurance?*
- *What is your construction fee?*
- *Can you construct this project with 10% retainage?*
- *Who will be the on-site superintendent?*
- *Discuss the superintendent's experience.*
- *List at least three references.*

BUILDER'S CONTRACTS

Be sure legal name of church is used.

If unincorporated, all trustees must sign contract.

Preliminary Studies:

Preliminary studies should include estimated cost of obtaining all permits.

Project Costs Beyond Contract:

What specifically is excluded from the contract price?

Progress Payments:

- A. The draw schedule should match that of the lender.
- B. Draw request should be based on percentage of project completed.
- C. Contractor should provide lien waivers for all work previously paid for by owner before subsequent draw is honored.
- D. Owner should review and approve work completed before draw is paid. This is especially true if architect is in the employ of the contractor.

Acceptance and Final Payment:

- A. Contractor should provide final affidavit stating that all bills have been paid and that there are no outstanding liens against the property.
- B. Copies of all lien waivers must be provided by the contractor to the owner, including the contractor's own final lien waiver.
- C. Lender and owner must accept the project.

Donated Material and Labor:

The lender does not advance money for the purchase of materials by the church. The church must pay for this itself and seek reimbursement from the lender for material that has been used or is stored securely on site for the project.

Right to Terminate Project:

- A. Number of days after due date by which the owner must make payment to contractor should not be fewer than 14.
- B. This number of days should be consistent with the time period allowed for payment by owner in the section "progress payments."

Liability Insurance:

Contractor's liability insurance should not be less than \$1,000,000.

Arbitration:

- A. Trial is preferable for owner; however, the contract should allow for either party to request arbitration.
- B. Contract should state that the services of the American Arbitration Association would be used in the event arbitration is necessary.
- C. Contract should also state that the prevailing party could recover costs and attorney's fees.

Warranty: Statute of Limitations on filing a suit for defects in materials and workmanship is four (4) years.

Substantiation:

If a party or parties other than the contractor and the owner is (are) a signatory to the contract, it should be stated that the other party/parties is (are) in the employ of the contractor.

Contract should also include:

- A. Statement of completion date or time span for completion
- B. Defined penalty for non-completion by agreed upon date.
- C. Lender will require reference to payment and performance bonds, if such.
